Anne Hunter – Welcomed everyone

Dr. Dunn briefed the Council on the recent Dufour Conference attended by 30 MHS Teachers. The 3 day conference was held in Salt Lake City, mid-November. On the final day participants met to discuss what was presented. He feels that the conference was very successful and well attended.

The Dufour Conference is PLC driven (Professional Learning Communities) and is about calibrated teaching throughout the term. Teachers at Murray High meet together in their PLC Groups twice a month to share assessments and data.

Scott Wihongi added that data shows consistent improvement since the PLC implementation.

Scott Wihongi distributed copies of Murray High School Fundraisers 2013-2014 report, for review.

Larry Swim (Counselor) – presented information about Weighted GPA vs Non Weighted. The council then discussed the pros and cons of implementing a Weighted GPA.

Next SCC Meeting will be February 6th.
